completing
final semester.

Freelancing Work

Putting a focus on my final year of studies, I still had the chance to work with some fantastic clients on jobs ranging from UX/UI - graphics production.

Currently
2017

VPA Technologies - Head of Design Production and Development

My role involved creating two new websites during a company rebrand. I was also responsible for overseeing all design and media work coming in and out of the company.

October
2015

Work History

Event Manager EntertainUS

August
2016

My role was to create the most user friendly and fun event possible. I took charge of planning and running 12 events all over Australia in a year.

Production Team Search4hurt

My role at S4H was to assist the team with filming and editing of the third series. I also was enabled here to produce my own documentary special in the Simpson Desert that aired on ESPN.

March

2014
